Maths Key Stage 4 Curriculum Overview the curriculum differs according to student groupings

| $\begin{gathered} \text { Year } \\ 10 \end{gathered}$ | Autumn | Spring | Summer |
| :---: | :---: | :---: | :---: |
| Target Grade 2,3, and 4 | Stem \& Leaf Diagrams Fraction/Decimal/Percentage/Ratio Conversions Properties of Number Probability Constructions Fractions Averages \& Range Angle Rules Negative Numbers Area | Area <br> Scatter Graphs <br> Sequences <br> Ratio \& Proportion <br> Symmetry <br> Pie Charts <br> Equations <br> Factor Trees | Enlargement \& Translation Percentages with Calculators <br> Plans \& Elevations Circles <br> Frequency Polygons Formulas and Equations of Motion Distance Time Graphs 3-D Shapes |
| Target Grade 3,4 and 5 | Stem \& Leaf Diagrams Percentages with Calculators Bearings <br> Probability <br> Construction <br> Fractions <br> Angle Rules <br> Averages from Grouped Data <br> Pythagoras <br> Simplifying Expressions | Area <br> Sequences <br> Scatter Graphs <br> Speed \& Compound Measures <br> Nets \& Surface Area <br> Ratios <br> Pie Charts <br> Rounding \& Estimating <br> Factor Trees <br> Equations | Enlargement, Translation and Reflection <br> Written Calculations <br> Plans \& Elevations Circles <br> Frequency Polygons <br> Formulas and Equations of Motion <br> Distance Time Graphs 3-D Shapes |
| Target Grade 4, 5 and 6 | Inequalities Percentages Iteration (Trial \& Improvement) Probability Angles in Regular Polygons Fractions Loci Averages from Grouped Data Pythagoras Simplifying Expressions | Similar Shapes <br> Speed \& Compound Measures <br> Quadratic Sequences Ratios <br> Simultaneous Equations Stratified sampling Cumulative frequency Factor Trees <br> Enlargement, Translation \& Reflection | Enlargement, Translation \& Reflection Circles <br> Written Calculations <br> Straight Line Graphs <br> Formulas and Equations of Motion <br> Distance Time Graphs 3-D Shapes |
| Target Grade 5,6 and 7 | Inequalities Percentages Tree Diagrams Iteration (Trial \& Improvement) Trigonometry Angles in Regular Polygons Fractions Simplifying Expressions Histograms Averages from Grouped Data Pythagoras Indices \& Standard Form | Similar Shapes <br> Speed \& Compound Measures <br> Quadratic Expressions <br>  <br> Decimals <br> Stratified sampling <br> Cumulative frequency <br> Simultaneous Equations <br> 3-D Shapes (cylinders \& prisms) | Enlargement, Translation \& Reflection Decimals Circles Graphs <br> Formulas and Equations of <br> Motion <br> Distance Time Graphs <br> 3-D Shapes (cones \& spheres) |
| Target Grade 6,7,8 and 9 | Inequalities <br> Percentages <br> Combined Probability <br> Angles in Regular Polygons <br> Trigonometry <br> Indices and Standard Form <br> Averages from Grouped Data <br> Rearranging Formulae <br> Histograms <br> Pythagoras <br> Quadratic Expressions | Quadratic Expressions Similar Shapes Circle Theorems <br> Simultaneous Equations with Quadratics Vectors 1 Cumulative frequency 3-D Shapes | Transformations Circles <br> Distance Time Graphs Formulas and Equations of Motion <br> Recurring Decimals |
