

Maths Key Stage 3 Curriculum Overview

	Autumn		Spring		Summer	
Year	1	2	3	4	5	6
7	Rounding & Place Value	Fractions, Decimals and Percentages Applications of Number - Addition & Subtraction Probability	Developing Number Sense Sequences	Fractions and Percentages of Amounts	Geometric Reasoning Properties of Number	Equations Adding & Subtracting Fractions
	Directed Numbers			Applications of Number - Multiplication & Division		
	Algebraic Thinking			Area & Perimeter		
	Simplifying Expressions					
Constructing & Measuring						
8	Ratio & Scale 1	Geometric Reasoning Angles in Parallel Lines & Polygons Sequences Charts & Graphs	Area & Circumference Calculations with Fractions	Representing Data	Ratio & Scale 2 Directed Numbers Indices Standard Form Properties of Number	Coordinates & Graphs 2 Equations and Inequalities Probability Line Symmetry & Reflection Averages Constructions
	Coordinates & Graphs 1			Pythagoras' Theorem		
	Brackets and Equations			Directed Number		
	Percentages
